face and Feet Covered-Rest Broken and Would Cry Until Tired Out — "Cradle Cap" Added to Baby's Torture — Tries Cuticura Soap and Cuticura Ointment.

IMMEDIATE RELIEF AND SPEEDY CURE

"My baby was about nine months old when she had rash on her face and feet. Her feet seemed to irritate her most, especially nights. They would cause her to be broken of her rest, and sometimes she would cry until she was tired out. I had always used Cutteura Soap myself, and had heard of so many curse by the Cutteura Remedies that I thought I would give them a trial. The improvement was noticeable in a few hours, and before I had used one box of the Cutteura Ointment her foet were well and have never troubjed her since. I also used it to remove what is known as "cradic cap" from her head, and it worked like a charm as it cleaned and healed the scaip at the same time. Now I keep Cutteura Ointment en hand in case of any little rash or insect bites, as it takes out the inflammation at once. Perhaps this may be the means of helping other suffering bables.
